The Highgate Vehicle Lending Process

Lender productivity is important and Vehicle Lending has been designed to deliver the most efficient application process – one that permits lenders to spend their time on good applications and reduce the time spent on applications that are not likely to be approved.

While the application process can be designed to support any sequence of activities, Vehicle Lending is able to deliver a process based on progressive “GO/NO GO” decision points e.g.

- Who is the applicant?
- Is the applicant creditworthy?
- Can they afford the loan?
- Can they support it?
- Can they secure it?

Scorecards

Vehicle Lending lets you implement one or more scorecards to automate the review and decisioning process. You can use a commercial scorecard, or you can work with Highgate to develop a scorecard that is tailored uniquely for your particular business needs. These scorecards are managed by you, and may be modified as often as necessary to meet changing conditions.

Vehicle Lending is **fast**. It permits your staff to process credit applications quickly and effectively. The results are reduced delinquency and happy customers whose needs have been met effectively, as well as highly productive staff members who can maximize their throughput each and every day.
